TECHNICAL DATA

Bar cabinet, 2015

Material: **Basque Cherry wood**

Finish: **Vaseline oil, Aerosol paint**

Dimensions: **H: 128cm, W: 104cm, D: 42,5cm**

Maker-Designer: **Tuomas Kuure**

Special Edition limited to 5

DESCRIPTION

13 minutes bar cabinet is a part of a clock of 3,5m diameter. On the horizontal plane is the golden present, almost a perfect projection of its nearest past. As the time goes by the reflection becomes less apparent. The minutes are stretching and shrinking, changing their colour depending on their meaning to us. Series of details composed of engaging form and continuing grain appear on the sides, top, bottom, and inside of the cabinet.

SOLID WOOD

Basque wild Cherry heartwood is a light pinkish brown when freshly cut, darkening to a deeper golden brown with time and upon exposure to light. Has a fine to medium texture with close grain. The grain is usually straight or slightly wavy.

MAINTENANCE&CARE

For maintenance of oiled wood surfaces, use oil, an abrasive sponge and a cloth. The oil will penetrate the grain of the wood building dirt and water-repellent coat that protects the wood and gives it finish. The oil also cares for and maintains the light colour of the oak or ash, and leaves a smooth and silk matt surface. The surface must be thoroughly cleaned and dry. Clean with normal soapy water (not concentrated soap/washing-up liquid) and wipe dry immediately with a dry cloth. Clean the surface approx. 12 hours before the oil treatment.

To ensure proper adhesion, use an abrasive sponge to abrade the surface. It is important to work in the direction of the grain when abrading.

Shake the oil bottle well and apply the oil generously using a cloth. The surface must be glistening and the oil allowed 15 to 20 minutes to be absorbed.
