TECHNICAL DATA

Coffee Table, 2014

Material: **Beech wood & Glass top**

Finish: **Acrylic varnish, Black Acrylic paint**

Dimensions: **L: 1250mm, W: 750mm, H: 502mm**

Maker-Designer: **Tuomas Kuure**

Special Edition limited to 5

DESCRIPTION

Trust the rhythm art furniture is bending and twisting in its space giving a whole different expression from each viewing angle. The black pauses between the crystal clear beech grain and all the detail of them always seems to be on the move to a certain direction.

SOLID WOOD

Beech lumber is typically a pale cream color, sometimes with a pink or brown hue. Flatsawn surfaces tend to be very plain, while quartersawn surfaces exhibit a silvery fleck pattern. Grain is straight, with a fine to medium uniform texture. Moderate natural luster. Beech is an important and widely-used hardwood in Europe. Its hardness, wear-resistance, strength, and excellent bending capabilities make this hardwood a mainstay for many European woodworkers.

MAINTENANCE&CARE

As the finishing used for Trust the rhythm art furniture by Tuomas Kuure is cover with acrylic varnish we recommend using a wet cloth for cleaning to keep the wood clear, shiny and good looking.

Damage repair: Small Scratches can be smoothed by sanding in the direction of the grain using grit 220 sandpaper. Repeat the varnish treatment after sanding.
